

### **Relapse Policy for Residents**

- **First relapse:** If the resident suffers a relapse while at Quiet Creek Farm, he will return to the original 30 day black out period.
- **Second relapse:** If the resident suffers a relapse a second time, a 60 day black out period will be enforced. During this time, the resident will need to attend additional AA and/or NA meetings and will be asked to attend more than one counseling session during a seven day period, with any additional cost absorbed by the resident.
- **Third relapse:** If a third relapse occurs, the resident may be asked to leave the farm and re-enter a 28-day program.
